

Placing a Zana Deux Order

The Zana Deux is an investment in audio art; custom made and hand built in small runs to assure exceptional sound and timeless quality. Each Zana Deux is made especially for its collector, built in runs that are announced throughout the year to allow affordability without sacrificing individuality and distinction. The Zana Deux is designed by former Moth Audio engineer Craig Uthus, who is well known for creating state-of-the-art audio designs with suburb sound. His amplifiers have been featured in *Stereophile* and *Robb Report*.

When you place an order for your Zana Deux you are special ordering a piece of audio gear that can take 8 to 12 weeks to manufacture. (During winter holidays when plants close down there can be unforeseen delays and Eddie Current will try to schedule runs around this.)

Current price of the Zana Deux is \$2200.00 and includes all tubes tested with your amp. Placing an order for a Zana Deux requires a 50% deposit of \$1100.00. Upon completion of the amp, final payment is due.

Deposits have been refunded in special circumstances; however, the deposit does go to pay for your amplifier parts and deposit refunds are contingent upon the sale of your amplifier.

Deposits are accepted through Paypal at cuthus@charter.net or you can send a check or money order to:
